-SUMMER CAMP 2018-

Who are we? At James Cameron School we address the intellectual, social, emotional and physical development of children who have a specific learning disorder, such as dyslexia. Our focus on the whole child fosters self-confidence, builds skills, and maximizes learning and personal success. It is here that they can comfortably open up and share their unique gifts and get the skills needed to prepare them for high school and a successful future.

What is Summer Camp? Summer Camp is taught by Orton Gillingham trained tutors in a supportive setting, specifically tailored to teaching through learning challenges. Your child will be set up to work one to one with their own Tutor in a relaxed environment that allows them to work at their own pace. The Orton-Gillingham approach is language and multi-sensory based and provides continuous, positive feedback to help students become competent readers, writers and independent learners.
